

7TH AORTIC ASIA SINGAPORE

6-7 APRIL 2018

Under the auspices of

**CHAPTER OF
CARDIOTHORACIC SURGEONS**

**SOCIETY OF VASCULAR
AND ENDOVASCULAR
SURGEONS OF SINGAPORE**

ORGANISING COMMITTEE

Victor Chao (Chairman)

Peter Robless

Stephen Cheng

Malcolm Underwood

Worawong Slisatkorn

Kiang Hiong Tay

Tze Tec Chong

Andrew Choong

Julian Wong

COLLABORATING FOR THE FUTURE IN AORTIC INTERVENTION

www.aorticasia.com

REGISTRATION FEES

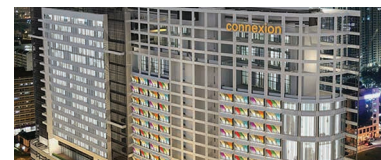

MAIN SYMPOSIUM Apr 6-7, 2018	ONE DAY	TWO DAYS
Physician	SGD 350	SGD 450
College of Surgeons Member	SGD 250	SGD 300
Nurse / Trainee*	SGD 175	SGD 225

* Please provide letter from Head of Department

VENUE

One Farrer Hotel

1 Farrer Park Station Road
Singapore 217562

7TH AORTIC ASIA SINGAPORE

6-7 APRIL 2018

AORTIC ASIA 2018 DAY 1, 6 APRIL

Session I: The Force Awakens: Moderated Case Discussion	
Case 1	Andrew Choong
Case 2	Dharmaraj Rajesh Babu
Case 3	Benjamin Leong
Discussion	
Case 4	Ko Po Jen
Case 5	Khamin Chinsakchai
Case 6	Chan Yiu-Che
Discussion	
Tea Break	
Session II: The Big Issues	
The importance radiation safety practices for the modern vascular interventionist	Bijan Modarai
Is volume important in aneurysm surgery?	Eric Verhoeven
Endoleak Management: why bother?	Tay Kiang Hiong
Morphological Characteristics of Ascending Aorta & Arch in Asian Patients with Degenerative Arch Aneurysms and Type B Aortic Dissecting Aneurysms	Chan Yiu-Che
Geographical Differences in the presentation, management and outcomes in Acute Type A dissection	Malcolm Underwood
Factors Affecting Optimal Aortic Remodeling After Thoracic Endovascular Aortic Repair of Type B (IIIb) Aortic Dissection	Shih Chun-Che
Discussion	
Cook Medical Lunch Symposium	

Session III: Innovations in Aortic Intervention	
Fenestrated repair for juxta-renal abdominal aortic aneurysms in 2018	Bijan Modarai
Chimney EVAS: How and when to do it	Tze Tec Chong
Despite objections of many experts, Ch-EVAR has emerged as a useful treatment option for patients with complex-anatomy AAA	Frank Criado
Endoanchors: how to and how not to do it	Pua Uei
Options in the treatment of urgent juxtarenal and suprarenal AAAs in the real world	Leong Yew Pung
Experience with Chimneys	Wittawat Tantarattanpong
Low incidence rate of type 2 endoleaks following AFX EVAR	Yoshihiko Kurimoto
Session IV: Round Table Discussion: Complex Aortic Problems	
Bail-out techniques when antegrade catheterization fails in F/B	Eric Verhoeven
Fenestrated and Branched endografts: Long term complications	Stephen Cheng
Off label PMEG/ FEVAR in Aortic Dissections	Sugku Han
Early experience with fenestrated thoracic endografts	Glenn Tan
Frozen elephant trunk	Malakh Shresta
The Impact of Distal Stent Graft-Induced New Entry on Aortic Remodeling of Chronic Type B Dissection.	Shih Chun-Che
Discussion	

7TH AORTIC ASIA SINGAPORE

6-7 APRIL 2018

AORTIC ASIA 2018 DAY 2, 7 APRIL

Early Bird Breakfast Session

Options for Endovascular Management of AAA Associated with Small Distal Aorta	Benjamin Leong
Preservation of the Internal Iliac Artery using Sandwich Technique	Jin Hyun Joh
In situ fenestration for aortic arch endografting	Li YongJun
Experience of device that rests on the Natural Aortic Bifurcation	Ji Hoon You

Session V: Thoracoabdominal Aortic Pathology

Acute TAAAB grafting: does it really work? What are the options?	Eric Verhoeven
Mid term results of branched/fen EVAR in TAAA	Jost Philipp Schaefer
Review of Treatment for Thoracoabdominal Aortic Aneurysm, and the Modern Experience of Multi-Branched Endograft in Taiwan.	Shih Chun-Che
TEVAR in patients with connective tissue disease	Stephen Cheng
Spinal cord ischemia after endovascular repair of TAAA with F/B grafts	Eric Verhoeven
The efficacy of open surgery for descending thoracic aorta in the endovascular era	Takuya Fujikawa
Discussion	
Tea Break	

Session VI: Challenges in Aortic Dissection: How I would do it

Aortic branch remodeling after TEVAR for type B aortic dissection	Sukgu Han
Endovascular treatment of acute type B dissection – when and how to intervene safely	Bijan Modarai
In favor of a more aggressive TEVAR intervention strategy on type B dissection patients who have had surgical graft replacement of the ascending aorta	Frank Criado

Session VI: Challenges in Aortic Dissection: How I would do it (cont'd)

TEVAR in complicated and uncomplicated TBAD: PSU Experience	Boonprasit Kritpracha
STABILIZE in acute/subacute dissections as a new definite treatment option?	Eric Verhoeven
Open surgery as a definite procedure for chronic type B dissection	Takuya Fujikawa
Discussion	
Lunch	

Session VII: More Dissection

TEVAR for chronic dissections: strategy for durability	Stephen Cheng
Complex endografting for post dissection aneurysms	Bijan Modarai
Treatment of chronic dissections with fenestrated and branched endografts: what have we learned?	Eric Verhoeven
Role for parallel grafting and FEVAR in dissections	Sukgu Han
Improving operative results of type A acute aortic dissection: Examination of 700 cases in the last decade	Takuya Fujikawa
Update in management of uncomplicated type B aortic dissection	Slisatkorn Worawong
Discussion	
Tea Break	

Session VIII: The Last Jedi Session

The Great Debates:	
Type 2 endoleaks are benign	For: Phil Puckridge
	Against: Yoshihiko Kurimoto
Endovascular repair for the aortic arch: Has the time come?	For: Eric Verhoeven/ Stephen Cheng
	Against: Takuya Fujikawa/ Malakh Shresta
